ABOUT ME

With an academic background in architecture, I am particularly interested in the integration of environmental design, digital tools, and artistic approaches. My experience includes freehand architectural drawing, landscape and urban design, and computer-aided modeling. I am currently focused on sustainable and energy-efficient building strategies and aim to deepen my expertise through advanced studies.

EDUCATION

9.2014-9.2017	M.Sc. in Architecture – Architectural Engineering Khazar Institute of Higher Education, MahmoudAbad, Iran GPA: 17.61/20 - 2.20/5.00 (German system) Thesis: Residential Complex Design Based on Double-Skin Facade for Energy Optimization
